His first book, Flock of Dodos: Behind Modern Creationism, Intelligent Design, and the Easter Bunny, was released in 2007 to praise from Alan Dershowitz, Rolling Stone, and other sources; his second, Hot, Fat, and Clouded: The Amazing and Amusing Failures of America's Chattering Class (Being a Complete Record of the Incompetence of our Republic's Mainstream Pundits, Many of Whom Deserve to be Exiled or at Least Have Their Cars Vandalized), will be published in 2010. Brown also serves as director of communications for Enlighten the Vote, a political action committee dedicated to preserving the Establishment Clause. He's appeared on Fox News and other, less bizarre outlets. E-mail him here.
